

# ADVANCING GP EXPERTISE IN GYNAECOLOGICAL CANCERS: FOCUS ON OVARIAN AND ENDOMETRIAL CANCER

This webinar aims to enhance the proficiency of general practitioners in the diagnosis, management, and holistic care of patients with gynaecological cancers, specifically focusing on ovarian and endometrial cancers, thereby improving patient outcomes and overall quality of care.

## Outcomes

- Recognise the challenges to the early detection of ovarian cancer
- Provide updates on the latest management strategies and treatment advancements, including the role of genetic testing and the importance of a multidisciplinary care approach in ovarian cancer
- Highlight the importance of the role of primary care in managing co-morbidities of endometrial cancer
- Highlight the psychological, sexual, nutritional, and lifestyle concerns associated with gynaecological cancers, including the importance of integrating survivorship programs into treatment plans.

## Webinar program

Tuesday 26<sup>th</sup> March 2024

Time	Event	Topic	Speaker
7:00pm (5 mins)	<b>Welcome &amp; Introduction</b>	<b>Welcome and objectives</b>	<b>Prof Jon Emery</b>
7:05pm (10 mins)	<b>Patient perspective</b>	<b>Lived experience</b>	<b>Christine Crupi</b>
<b>Session 1 – Ovarian Cancer</b>			
7:15pm (20 mins)		<b>Challenges of Early Detection and Screening in Ovarian Cancer</b> <ul style="list-style-type: none"> <li>• Evidence regarding screening – current utility</li> <li>• Early detection in high-risk populations</li> </ul> Case studies to illustrate challenges (possibly BRCA1/2 patient)	<b>Prof Jon Emery</b>

		<b>Early Symptomatic Detection, Diagnosis and Treatment</b> <ul style="list-style-type: none"> <li>• Common symptoms and signs</li> <li>• Differential diagnosis</li> <li>• Importance of patient history and physical examination</li> </ul>	
7:35pm (10 mins)		<b>BRCA Testing and Other Genetic Mutations</b> <ul style="list-style-type: none"> <li>• Overview of BRCA1 and BRCA2 mutations</li> <li>• Other relevant genetic mutations</li> <li>• Guidelines for genetic counselling and testing</li> <li>• Treatment options (surgery, chemotherapy and targeted agents)</li> </ul>	<b>Dr Rachel Delahunty</b>
<b>Session 2 – Endometrial Cancer</b>			
7:45pm (20 mins)		<ul style="list-style-type: none"> <li>• Epidemiology and risk factors</li> <li>• Co-morbidities associated with endometrial cancer</li> <li>• Multidisciplinary approach</li> <li>• Management of additional concerns, including menopausal symptoms, fertility issues</li> </ul>	<b>Dr Niveditha Rajadevan</b>
8:05pm (10 mins)		<b>Survivorship and Models of Care</b> <ul style="list-style-type: none"> <li>• Referral pathways</li> <li>• Role of primary care in management</li> <li>• Long-term follow-up care</li> <li>• Survivorship care plans</li> </ul>	<b>Annie Chuang</b>
<b>Session 3 - Q&amp;A</b>			
8:15pm (15 mins)	<b>Q&amp;A and Conclusion</b>	<b>Q&amp;A Session and Conclusion</b> <ul style="list-style-type: none"> <li>• Questions and discussions</li> <li>• Summarise key points</li> </ul>	<b>Chaired Prof Jon Emery</b>
