2022 Annual Financial Report

Manager's Declaration

In the opinion of the manager of the joint venture, the Victorian Comprehensive Cancer Centre Ltd:

- (i) The attached financial statements of the Victorian Comprehensive Cancer Centre joint venture have been prepared in accordance with the Australian Accounting Standards.
- (ii) The information set out in the Comprehensive Operating Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows and accompanying notes presents fairly the financial transactions during the year ended 30 June 2022 and the financial position of the joint venture as at 30 June 2022.
- (iii) We are not aware of any circumstances which would render any particulars in the financial statements to be misleading or inaccurate.
- (iv) There are reasonable grounds to believe that the joint venture will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Board of the Victorian Comprehensive Cancer Centre Ltd, the manager of the joint venture.

Linda Kristjanson
Chairperson

Grant McArthur
Executive Director

Craig Zanker
Director of Finance & Corporate Services

Melbourne
23rd August 2022

Independent Auditor's Report

To The Manager of the Victorian Comprehensive Cancer Centre

Opinion I have audited the financial report of the Victorian Comprehensive Cancer Centre (the joint venture) which comprises the:

- balance sheet as at 30 June 2022
- comprehensive operating statement for the year then ended
- statement of changes of equity for the year then ended
- cash flow statement for the year then ended
- notes to the financial statements, including significant accounting policies
- declaration by the manager of VCCC joint venture - Victorian Comprehensive Cancer Centre Ltd.

In my opinion the financial report presents fairly, in all material respects, the financial position of the joint venture as at 30 June 2022 and its financial performance and cash flows for the year then ended in accordance with applicable Australian Accounting Standards.

Basis for Opinion I have conducted my audit in accordance with the *Audit Act 1994* which incorporates the Australian Auditing Standards. I further describe my responsibilities under that Act and those standards in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report.

My independence is established by the *Constitution Act 1975*. My staff and I are independent of the joint venture in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Victoria. My staff and I have also fulfilled our other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

The Manager's responsibilities for the financial report The Manager of the joint venture is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and, and for such internal control as the Manager determines is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Manager is responsible for assessing the joint venture's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is inappropriate to do so.

Auditor's responsibilities for the audit of the financial report

As required by the *Audit Act 1994*, my responsibility is to express an opinion on the financial report based on the audit. My objectives for the audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the joint venture's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager
- conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the joint venture's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the joint venture to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

MELBOURNE
30 August 2022

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

1. Basis of preparation

These financial statements represent the audited general purpose financial statements for the Victorian Comprehensive Cancer Centre joint venture, trading as VCCC Alliance, for the year ended 30 June 2022. The report provides users with information about VCCC Alliance's stewardship of the resources entrusted to it.

This section explains the basis of preparing the financial statements and identifies the key accounting estimates and judgements.

1.1 Basis of preparation of the financial statements

These financial statements have been prepared on an accruals basis in accordance with applicable Australian Accounting Standards (AASs) issued by the Australian Accounting Standards Board (AASB), which includes other interpretations and mandatory professional reporting requirements. They are presented in a manner consistent with the requirements of AASB 101 *Presentation of Financial Statements*.

VCCC Alliance is a not-for-profit entity and therefore applies the additional AUS paragraphs applicable to "not-for-profit" entities under the AASs. AASs set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Apart from changes in accounting policies, standards and interpretations as noted below, material accounting policies adopted in the preparation of these financial statements are the same as those adopted in the previous period.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets.

The financial statements have been prepared on a going concern basis.

The financial statements are in Australian dollars.

The amounts presented in the financial statements have been rounded to the nearest dollar. Minor discrepancies in tables between total and sum of components are due to rounding.

The financial statements were authorised for issue by the Board of the Victorian Comprehensive Cancer Centre Ltd, the manager of VCCC Alliance, on 23rd August 2022.

1.2 Impact of COVID-19 pandemic

In March 2020 a state of emergency was declared in Victoria due to the global coronavirus pandemic, known as COVID-19. On 2 August 2020 a state of disaster was added with both operating concurrently. The state of disaster in Victoria concluded on 28 October 2020 and the state of emergency concluded on 15 December 2021.

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

The COVID-19 pandemic has created economic uncertainty. Actual economic events and conditions in the future may be materially different from those estimated by VCCC Alliance at the reporting date. Management recognises that it is difficult to reliably estimate the potential impact of the pandemic after the reporting date on VCCC Alliance, its operations, its future results and financial position.

In response to the ongoing COVID-19 pandemic, VCCC Alliance has:

- restricted events, workshops and symposiums; and
- implemented work from home arrangements where appropriate.

As restrictions have eased during the financial year, VCCC Alliance has been able to revise some measures where appropriate including:

- the return to in-person events, with appropriate measures in place;
- transitioning staff back to the office under hybrid working arrangements.

Further information on the impacts of the pandemic are disclosed at:

Note 2: Funding delivery of our activities

Note 3: The cost of delivering activities

Note 4: Key assets used to support activities

Note 5: Other assets and liabilities

Note 6: How we finance our operations

1.3 Abbreviations and terminology used in the financial statements

The following table sets out the common abbreviations used throughout the financial statements:

Reference	Title
AASB	Australian Accounting Standards Board
AASs	Australian Accounting Standards, which include Interpretations
GST	Goods and Services Tax
SPP	Strategic Program Plan (2021-24)
DH	Department of Health
VAGO	Victorian Auditor General's Office
VCCC Alliance	Victorian Comprehensive Cancer Centre joint venture
VCCC Ltd	Victorian Comprehensive Cancer Centre Ltd

1.4 Key accounting estimates and judgements

Management make estimates and judgements when preparing the financial statements.

These estimates and judgements are based on historical knowledge and best available current information and assume a reasonable expectation of future events. Actual results may differ.

Revisions to key estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision.

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

The accounting policies and significant management judgements and estimates used, and any changes thereto, are identified at the beginning of each section where applicable and are disclosed in further detail throughout the accounting policies.

1.5 Accounting standards issued but not yet effective

An assessment of accounting standards and interpretations issued by the AASB that are not yet mandatorily applicable to VCCC Alliance and their potential impact when adopted in future periods is outlined below:

Standard	Adoption Date	Impact
AASB 2020-1: Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-Current	Reporting periods on or after 1 January 2022	Adoption of this standard is not expected to have a material impact.
AASB 2020-3: Amendments to Australian Accounting Standards - Annual Improvements 2018-2020 and Other Amendments	Reporting periods on or after 1 January 2022	Adoption of this standard is not expected to have a material impact.
AASB 2021-2: Amendments to Australian Accounting Standards - Disclosure of Accounting Policies and Definitions of Accounting Estimates	Reporting periods on or after 1 January 2023	Adoption of this standard is not expected to have a material impact.
AASB 2021-6: Amendments to Australian Accounting Standards - Disclosure of Accounting Policies: Tier 2 and Other Australian Accounting Standards	Reporting periods on or after 1 January 2023	Adoption of this standard is not expected to have a material impact.
AASB 2021-7: Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections	Reporting periods on or after 1 January 2023	Adoption of this standard is not expected to have a material impact.

There are no other accounting standards and interpretations issued by the AASB that are not yet mandatorily applicable to VCCC Alliance in future periods.

1.6 Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of GST, except where the GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables in the Balance Sheet are stated inclusive of the amount of GST. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the Balance Sheet.

Cash flows are included in the Cash Flow Statement on a gross basis, except for the GST components of cash flows arising from investing activities which are recoverable from, or payable to the ATO. These GST components are disclosed as operating cash flows.

**Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report**

Notes to the Financial Statements for the year ended 30 June 2022

Commitments and contingent assets and liabilities are presented on a gross basis.

1.7 Reporting entity

The financial statements include all the controlled activities of VCCC Alliance.

Its principal address is:

Level 10, 305 Grattan Street
Melbourne, Victoria 3000

A description of the nature of VCCC Alliance's operations and its principal activities is included in the report of operations, which does not form part of these financial statements.

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

2. Funding delivery of our services

VCCC Alliance's overall objective is to save lives through the integration of cancer research, education and training, and patient care. VCCC Alliance is predominantly funded by grant funding and contributions from members. VCCC Alliance also receives revenue from a variety of other sources, such as conference and events, sponsorship, interest and rental revenue.

Telling the COVID-19 story

Revenue recognised to fund the delivery of our activities during the financial year was not materially impacted by the COVID-19 coronavirus pandemic.

Key judgements and estimates

Key judgements and estimates	Description
Identifying performance obligations	VCCC Alliance applies significant judgment when reviewing the terms and conditions of funding agreements and contracts to determine whether they contain sufficiently specific and enforceable performance obligations. If this criteria is met, the contract/funding agreement is treated as a contract with a customer, requiring VCCC Alliance to recognise revenue as or when the joint venture transfers promised goods or services to the beneficiaries. If this criteria is not met, funding is recognised immediately in the net result from operations.
Determining timing of revenue recognition	VCCC Alliance applies significant judgement to determine when a performance obligation has been satisfied and the transaction price that is to be allocated to each performance obligation. A performance obligation is either satisfied at a point in time or over time.

2.1 Revenue and income from transactions

	2022 \$	2021 \$
Income from transactions		
Income from member entities	1,565,140	1,542,010
Grants from Department of Health	9,715,140	5,552,010
Other grant funding	1,465,694	597,888
Other income	974,819	578,890
Interest income	27,746	15,899
	13,748,539	8,286,697
Revenue from contracts with customers		
Rental revenue	224,310	137,358
	224,310	137,358
Total revenue and income from transactions	13,972,849	8,424,055

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

How we recognise revenue and income from transactions

To recognise revenue, VCCC Alliance assesses each grant to determine whether there is a contract that is enforceable and has sufficiently specific performance obligations in accordance with AASB 15: *Revenue from Contracts with Customers*.

When both these conditions are satisfied, VCCC Alliance:

- identifies each performance obligation relating to the revenue
- recognises a contract liability for its obligations under the agreement
- recognises revenue as it satisfied its performance obligations, at the time or over time when services are rendered.

If a contract liability is recognised, VCCC Alliance recognises revenue in profit or loss as and when it satisfies its obligations under the contract, unless a contract modification is entered into between all parties. A contract modification may be obtained in writing, by oral agreement or implied by customary business practices.

Where the contract is not enforceable and/or does not have sufficiently specific performance obligations, VCCC Alliance:

- recognises the asset received in accordance with the recognition requirements of other applicable Accounting Standards (for example, AASB 9, AASB 16, AASB 116 and AASB 138)
- recognises related amounts (being provisions, revenue or contract liabilities from a contract with a customer), and
- recognises income immediately in profit or loss as the difference between the initial carrying amount of the asset and the related amount in accordance with AASB 1058.

This policy applies to each of VCCC Alliance's revenue streams, with information detailed below relating to VCCC Alliance's significant revenue streams:

Income from member entities

Amounts received from member entities have been recognised as income on receipt in accordance with AASB 1058.

Grants funding

Grants received do not have sufficiently specific performance obligations and therefore have been recognised as income on receipt in accordance with AASB 1058.

The VCCC Alliance executed a new multi-year grant funding agreement with the Department of Health in March 2021 to deliver a new Strategic Program Plan by mid-2024. The first full financial year under this agreement has seen an increase in grant revenue and growth in associated commitments and prepayments for the contractual delivery of elements of the plan by our members and other stakeholders.

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

Other income

Amounts disclosed as other income come from varied sources and are recognised under both AASB 15 and AASB 1058 depending on the individual arrangements.

Contracted sponsorship revenue is recognised under AASB 15 as performance obligations are satisfied. Other types of income such as conference income received through a professional conference organiser, and reimbursement of expenses where no contract exists, are recognised under AASB 1058 on receipt.

Interest income

Interest income is recognised on a time proportionate basis that considers the effective yield of the financial asset, which allocates interest over the relevant period.

Rental revenue

Rental revenue relates to shared office and laboratory space in the VCCC building governed by the VCCC Alliance. The performance obligation is the provision of this space to other parties and is recognised on a straight-line basis over the term of the lease, unless another systematic basis is more representative of the pattern of use of the underlying asset.

**Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report**

Notes to the Financial Statements for the year ended 30 June 2022

3. The cost of delivering our services

This section provides an account of the expenses incurred by VCCC Alliance in achieving its objective as outlined in Section 2.

Project expenses

Project expenses include payments to other entities (both members of the Alliance and non-members) for staff expenses and the provision of goods and services to support completion of collaborative research and education projects. Expenses are categorised by the nature of the expense. This is a change from prior years due to the commencement of a newly funded Strategic Program Plan which includes projects which integrate both research and education elements rather than projects with a singular focus.

Project expenses were previously categorised by the type of project rather than the nature of the expenditure in the following ways:

- Research Projects: project expenses for collaborative programs in cutting-edge areas of cancer research.
- Education & Training Projects: project expenses to build capacity and capability of the cancer workforce.
- Clinical Research Focus: project expenses to grow clinical trials in new areas and allow greater patient participation in trials.

Telling the COVID-19 story

Expenses incurred to deliver services during the financial year were not materially impacted by the COVID-19 coronavirus pandemic.

Key judgements and estimates

Key judgements and estimates	Description
Classifying employee benefit liabilities	<p>VCCC Alliance applies significant judgment when classifying its employee benefit liabilities.</p> <p>Employee benefit liabilities are classified as a current liability if VCCC Alliance does not have an unconditional right to defer payment beyond 12 months. Annual leave and long service leave entitlements (for staff who have exceeded the minimum vesting period) fall into this category.</p> <p>Employee benefit liabilities are classified as a non-current liability if VCCC Alliance has a conditional right to defer payment beyond 12 months. Long service leave entitlements (for staff who have not yet exceeded the minimum vesting period) fall into this category.</p>

**Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report**

Notes to the Financial Statements for the year ended 30 June 2022

Measuring employee benefit liabilities	<p>VCCC Alliance applies significant judgment when measuring its employee benefit liabilities.</p> <p>The joint venture applies judgement to determine when it expects its employee entitlements to be paid.</p> <p>With reference to historical data, if VCCC Alliance does not expect entitlements to be paid within 12 months, the entitlement is measured at its present value, being the expected future payments to employees.</p> <p>Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures, and are discounted at rates determined by reference to market yields on government bonds at the end of the reporting period.</p> <p>All other entitlements are measured at their nominal value.</p>

Total other expenses from transactions		6,496,397	5,406,703

How we recognise expenses from transactions

Expenses are recognised as they are incurred and reported in the financial year to which they relate.

Employee expenses

Employee expenses include:

- Salaries and wages (including leave entitlements, termination payments)
- On-costs
- Workcover premiums.

Operating expenses

Operating expenses generally represent the day-to-day running expenses incurred in normal operations.

Total employee benefits and related on-costs	465,548	427,770

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

Attributable to

Employee benefits	410,349	379,946
Provision for related on-costs	55,199	47,824
Total employee benefits and related on-costs	465,548	427,770

How we recognise employee benefits

Employee benefits are accrued for employees in respect of annual leave and long service leave, for services rendered to the reporting date as an expense during the period the services are delivered.

No provision has been made for sick leave as all sick leave is non-vesting and it is not considered probable that the average sick leave taken in the future will be greater than the benefits accrued in the future. As sick leave is non-vesting, an expense is recognised in the Comprehensive Operating Statement as it is taken.

Annual leave

Liabilities for annual leave are recognised in the provision for employee benefits as 'current liabilities' because VCCC Alliance does not have an unconditional right to defer settlements of these liabilities.

Depending on the expectation of the timing of settlement, liabilities for annual leave are measured at:

- Nominal value - if VCCC Alliance expects to wholly settle within 12 months, or
- Present value - if VCCC Alliance does not expect to wholly settle within 12 months.

Long service leave

The liability for long service leave (LSL) is recognised in the provision for employee benefits.

Unconditional LSL is disclosed in the notes to the financial statements as a current liability even where the VCCC Alliance does not expect to settle the liability within 12 months because it will not have the unconditional right to defer the settlement of the entitlement should an employee take leave within 12 months. An unconditional right arises after a qualifying period.

The components of this current LSL liability are measured at:

- Nominal value - if VCCC Alliance expects to wholly settle within 12 months, or
- Present value - if VCCC Alliance does not expect to wholly settle within 12 months.

Conditional LSL is measured at present value and is disclosed as a non-current liability. Any gain or loss following revaluation of the present value of non-current LSL liability is recognised as a transaction, except to the extent that a gain or loss arises due to changes in estimations, eg. bond rate movements, inflation rate movements and changes in probability factors which are then recognised as other economic flows.

Provision for on-costs related to employee benefits

Provision for on-costs such as workers compensation and superannuation are recognised separately from employee benefits.

**Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report**

Notes to the Financial Statements for the year ended 30 June 2022

3.3 Superannuation

How we recognise superannuation

Employees of VCCC Alliance are entitled to receive superannuation benefits and it contributes to defined contribution plans.

Defined contribution superannuation plans

In relation to defined contribution (i.e. accumulation) superannuation plans, the associated expense is simply the employer contributions that are paid or payable in respect of employees who are members of these plans during the reporting period. Contributions to defined contribution superannuation plans are expensed when incurred.

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

4. Key assets to support service delivery

VCCC Alliance controls infrastructure and other investments that are utilised in fulfilling its objectives and conducting its activities. They represent the key resources that have been entrusted to VCCC Alliance to support its operating activities.

Telling the COVID-19 story

Assets used to support the delivery of our services during the financial year were not materially impacted by the COVID-19 coronavirus pandemic.

Key judgements and estimates

Key judgements and estimates	Description
Estimating useful life of plant and equipment	VCCC Alliance assigns an estimated useful life to each item of plant and equipment. This is used to calculate depreciation of the asset. VCCC Alliance reviews the useful life and depreciation rates of all assets at the end of each financial year and where necessary, records a change in accounting estimates.
Estimating useful life of intangible assets	VCCC Alliance assigns an estimated useful life to each intangible asset with a finite useful life, which is used to calculate amortisation of the asset.
Identifying indicators of impairment	<p>At the end of each year, VCCC Alliance assesses impairment by evaluating the conditions and events specific to the joint venture that may be indicative of impairment triggers. Where an indication exists, VCCC Alliance tests the asset for impairment.</p> <p>VCCC Alliance considers a range of information when performing its assessment, including considering:</p> <ul style="list-style-type: none"> • If an asset's value has declined more than expected based on normal use • If a significant change in technological, market, economic or legal environment which adversely impacts the way VCCC Alliance uses an asset • If an asset is obsolete or damaged • If the asset has become idle or if there are plans to discontinue or dispose of the asset before the end of its useful life • If the performance of the asset is or will be worse than initially expected. <p>Where an impairment trigger exists, VCCC Alliance applies significant judgement and estimate to determine the recoverable amount of the asset.</p>

Balance at 30 June 2022	44,433	82,511	4,893	131,837

How we recognise plant and equipment

Plant and equipment are tangible items that are used by VCCC Alliance in the supply of goods or services, or for administrative purposes, and are expected to be used during more than one financial year.

Initial recognition

Items of plant and equipment are initially measured at cost. Where an asset is acquired for no or nominal cost, being far below the fair value of the asset, the deemed cost is its fair value at the date of acquisition.

Subsequent measurement

Items of plant and equipment are subsequently measured at fair value less accumulated depreciation and impairment losses where applicable.

Fair value is determined with reference to the asset's highest and best use (considering legal or physical restrictions imposed on the asset, or commitments made in relation to the intended use of the asset).

Further information regarding fair value measurement is disclosed in Note 7.4.

4.3 Intangible assets

Additions	3,515	274,288	277,803
Disposals	-	-	-
Amortisation	(18,642)	-	(18,642)
Balance at 30 June 2022	35,484	274,288	309,772

How we recognise intangible assets

Intangible assets represent identifiable non-monetary assets without physical substance such as our website.

Initial recognition

Purchased intangible assets are initially recognised at cost.

An internally generated intangible asset arising from development (or from the development phase of an internal project) is also recognised at cost if, and only if, all of the following are demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale
- an intention to complete the intangible asset and use or sell it
- the ability to use or sell the intangible asset
- the intangible asset will generate probably future economic benefits
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset, and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

Subsequent measurement

Intangible assets with finite useful lives are carried at cost less accumulated amortisation and accumulated impairment losses.

4.4 Depreciation and amortisation

	2022	2021
	\$	\$
Depreciation		
Leasehold improvements	7,157	6,684
Computer equipment	36,462	31,562
Office equipment	704	789
Total depreciation	44,323	39,035

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

Amortisation

Website	18,642	18,405
Total amortisation	18,642	18,405
Total depreciation and amortisation	62,965	57,440

How we recognise depreciation

All plant and equipment in excess of \$1,000 that have finite useful lives are depreciated. Depreciation is generally calculated on a straight-line basis at rates that allocate the asset's value, less any estimated residual value, over its estimated useful life.

How we recognise amortisation

Amortisation is the systematic allocation of the depreciable amount of an asset over its useful life.

The following table indicates the expected useful lives of non-current assets on which the depreciation and amortisation charges are based.

	2022	2021
Leasehold improvements	10 years	10 years
Computer equipment	3 years	3 years
Office equipment	10 years	10 years
Website	5 years	5 years

4.5 Impairment of assets

How we recognise impairment

At the end of each reporting period, VCCC Alliance reviews the carrying amount of its tangible and intangible assets that have a finite useful life, to determine whether there is any indication that an asset may be impaired. If there is an indication of impairment, the assets concerned are tested as to whether their carrying value exceeds their possible recoverable amount. Where an asset's carrying value exceeds its recoverable amount, the difference is written-off as an expense, unless the asset is carried at a revalued amount.

VCCC Alliance did not record any impairment losses for the year ended 30 June 2022.

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

5. Other assets and liabilities

This section sets out those assets and liabilities that arose from VCCC Alliance's operations.

Telling the COVID-19 story

The measurement of other assets and liabilities were not materially impacted by the COVID-19 coronavirus pandemic.

5.1 Receivables and contract assets

	2022	2021
	\$	\$
Current receivables and contract assets		
Contractual		
Trade receivables	531,639	89,621
Other receivables	70,077	40,971
Total contractual receivables	601,716	130,592
Statutory		
GST receivable	4,488	-
Total statutory receivables	4,488	-
Total current receivables and contract assets	606,204	130,592

How we recognise receivables

Receivables consist of:

- **Contractual receivables**, which mostly includes debtors in relation to goods and services. These receivables are classified as financial instruments and categorised as 'financial assets at amortised costs'. They are initially recognised at fair value plus any directly attributable transaction costs. VCCC Alliance holds the contractual receivables with the objective to collect the contractual cash flows and therefore they are subsequently measured at amortised cost using the effective method, less any impairment.
- **Statutory receivables** includes Goods and Services Tax (GST) input tax credits that are recoverable. Statutory receivables do not arise from contracts and are recognised and measured similarly to contractual receivables (except for impairment), but are not classified as financial instruments for disclosure purposes. VCCC Alliance applies AASB 9 for initial measurement of the statutory receivables and as a result, statutory receivables are initially recognised at fair value plus any directly attributable transaction cost.

Trade debtors are carried at nominal amounts due and are due for settlement within 30 days from the date of recognition.

In assessing impairment of statutory (non-contractual) financial assets, which are not financial instruments, professional judgement is applied in assessing materiality using estimates, averages and other computational methods in accordance with AASB 136 *Impairment of Assets*.

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

VCCC Alliance is not exposed to any significant credit risk exposure to any single counter-party or any group of counter-parties having similar characteristics. Trade receivables are minimal and based on historical information about customer default rates, management consider the credit quality of trade receivables that are not past due or impaired to be good.

5.2 Payables and contract liabilities

	Note	2022 \$	2021 \$
Current payables and contract liabilities			
Contractual			
Trade creditors		560,255	59,487

Contract liabilities	5.2(a)	50,000	90,000
Total non-current payables and contract liabilities		50,000	90,000
Total payables and contract liabilities		1,158,837	577,066

How we recognise payables and contract liabilities

Payables consist of:

- **Contractual payables**, which mostly includes payables in relation to goods and services. These payables are classified as financial instruments and measured at amortised cost. Accounts payable and salaries and wages payable represent liabilities for goods and services provided to VCCC Alliance prior to the end of the financial year that are unpaid.
- **Statutory payables** includes Goods and Services Tax (GST) payable. Statutory payables are recognised and measured similarly to contractual payables, but are not classified as financial instruments and are not included in the category of financial liabilities at amortised cost, because they do not arise from contracts.

The normal credit terms for accounts payable are usually 14 to 30 days.

Total non-current other assets	-	-
Total other non-financial assets	861,365	84,980

Other assets include prepaid expenses, which represent payments in advance of receipt of goods or services or the payments made for services covering a term extending beyond that financial accounting period.

Prepaid expenses have increased during the financial year due to commencement of a new multi-year funding agreement (refer note 2.1 Grants funding).

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

6. How we finance our operations

This section provides information on the sources of finance utilised by VCCC Alliance during its operations and other information related to financing activities of VCCC Alliance.

This section includes disclosures of balances that are financial instruments (such as cash balances). Note 7.1 provides additional, specific financial instrument disclosures.

Telling the COVID-19 story

Our finance arrangements were not materially impacted by the COVID-19 coronavirus pandemic.

6.1 Borrowings

Leases with significantly below market terms and conditions

VCCC Alliance holds lease arrangements which contain significantly below-market terms and conditions, which are principally to enable VCCC Alliance to further its objectives. These are commonly referred to as peppercorn or concessionary lease arrangements.

The nature and terms of such lease arrangements, including VCCC Alliance's dependency on such lease arrangements is described below:

Description of leased asset	Our dependence on lease	Nature and terms of lease
Administrative office including office furniture for 31 staff on level 10 of the Victorian Comprehensive Cancer Centre at 305 Grattan St, Melbourne	The leased office space is used for running the operations of VCCC Alliance. VCCC Alliance's dependence on this lease is considered high, due to close proximity to the majority of the joint venture members.	Lease payments of \$1 are required per annum, together with reimbursement for utilities. The lease commenced in 2016 and has a lease term of 25 years.
Administrative office including office furniture for 14 staff and three meeting rooms on level 13 of the Victorian Comprehensive Cancer Centre at 305 Grattan St, Melbourne	The leased office space is used for running the operations of VCCC Alliance. VCCC Alliance's dependence on this lease is considered high, due to close proximity to the majority of the joint venture members.	Lease payments of \$1 are required per annum, together with reimbursement for utilities. The lease commenced in 2018 and has a lease term of 4 years, with 4 options to extend for 4 years each.

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

6.2 Cash and cash equivalents

	2022	2021
	\$	\$
Cash on hand	500	500
Cash at bank	4,152,774	5,585,828
Total cash and cash equivalents	4,153,274	5,586,328

How we recognise cash and cash equivalents

Cash and cash equivalents recognised on the balance sheet comprise cash on hand and in banks, deposits at call and highly liquid investments (with an original maturity date of three months or less), which are held for the purpose of meeting short term cash commitments rather than for investment purposes, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

6.3 Commitments for expenditure

	2022	2021
	\$	\$
Operating expenditure commitments		
Less than one year	4,797,458	421,868
Longer than one year but not longer than five years	3,718,307	230,243
Total operating expenditure commitments (inclusive of GST)	8,515,765	652,111
Less GST recoverable from Australian Taxation Office	(773,630)	(59,283)
Total commitment for expenditure (exclusive of GST)	7,742,135	592,828

How we disclose our commitments

Commitments for future expenditure include operating commitments arising from contracts. These commitments are disclosed at their nominal value and are inclusive of the GST payable. In addition, where it is considered appropriate and provides additional relevant information to users, the net present values of significant projects are stated. These future expenditures cease to be disclosed as commitments once the related liabilities are recognised on the Balance Sheet.

Commitments for future expenditure have grown from the prior year due to commencement of a new multi-year funding agreement (refer note 2.1 Grants funding).

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

7. Risks, contingencies and valuation uncertainties

VCCC Alliance is exposed to risk from its activities and outside factors. In addition, it is often necessary to make judgements and estimates associated with recognition and measurement of items in the financial statements. This section sets out financial instrument specific information, (including exposures to financial risks) as well as those items that are contingent in nature or require a higher level of judgement to be applied, which for VCCC Alliance is related mainly to fair value determination.

7.1 Financial instruments

Financial instruments arise out of contractual agreements that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Due to the nature of VCCC Alliance's activities, certain financial assets and financial liabilities arise under statute rather than a contract (for example, taxes, fines and penalties). Such financial assets and financial liabilities do not meet the definition of financial instruments in AASB 132 *Financial Instruments: Presentation*.

How we categorise financial instruments

Financial assets at amortised cost

Financial assets are measured at amortised cost if both of the following criteria are met and the assets are not designated as fair value through net result:

- the assets are held by VCCC Alliance solely to collect the contractual cash flows, and
- the assets' contractual terms give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specific dates.

These assets are initially recognised at fair value plus any directly attributable transaction costs and are subsequently measured at amortised cost using the effective interest method less any impairment.

VCCC Alliance recognises the following assets in this category:

- cash and deposits
- receivables (excluding statutory receivables), and
- term deposits.

Financial liabilities at amortised cost

Financial liabilities are measured at amortised cost using the effective interest method, where they are not held at fair value through net result.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in net result over the relevant period. The effective interest is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

VCCC Alliance recognises the following liabilities in this category:

- payables (excluding statutory payables)

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance
2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

7.2 Financial risk management objectives and policies

Liquidity risk

Liquidity risk arises from being unable to meet financial obligations as they fall due. VCCC Alliance manages its liquidity risk by holding investments that are readily tradeable in the financial markets, and careful maturity planning of its financial obligations based on forecasts of future cash flows.

VCCC Alliance's exposure to liquidity risk is deemed insignificant based on prior periods' data and current assessment of risk. Cash for unexpected events is generally sourced from cash and cash equivalents.

The following table discloses the contractual maturity analysis for VCCC Alliance's financial liabilities.

	Carrying amount	Maturity Dates		
		Less than 1 month	1-3 months	Over 3 months
30 June 2022				
Financial liabilities at amortised cost				
Trade creditors	560,255	560,255	-	-
Accrued salaries and wages	82,729	82,729	-	-
Accrued expenses	210,626	210,626	-	-
Contract liabilities	107,125	7,125	-	100,000
Superannuation	118,048	118,048	-	-
Total financial liabilities (Note 5.2)	1,078,783	978,783	-	100,000

	Carrying amount	Maturity Dates		
		Less than 1 month	1-3 months	Over 3 months
30 June 2021				
Financial liabilities at amortised cost				
Trade creditors	59,487	59,487	-	-
Accrued salaries and wages	52,951	52,951	-	-
Accrued expenses	123,074	123,074	-	-
Contract liabilities	150,000	-	-	150,000
Superannuation	90,794	90,794	-	-
Total financial liabilities (Note 5.2)	476,306	326,306	-	150,000

Ageing analysis of financial liabilities excludes statutory financial liabilities (eg. GST payable).

7.3 Contingent assets and contingent liabilities

At balance date, the Board are not aware of any contingent assets or liabilities.

How we measure and disclose contingent assets and contingent liabilities

Contingent assets and contingent liabilities are not recognised in the balance sheet but are disclosed and, if quantifiable, are measured at nominal value.

Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

Victorian Comprehensive Cancer Centre, trading as VCCC Alliance

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

Contingent assets

Contingent assets are possible assets that arise from past events, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of VCCC Alliance.

These are classified as either quantifiable, where the potential economic benefit is known, or non-quantifiable.

Contingent liabilities

Contingent liabilities are

- possible obligations that arise from past events, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of VCCC Alliance, or
- present obligations that arise from past events but are not recognised because:
 - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligations, or
 - the amount of the obligations cannot be measured with sufficient reliability.

Contingent liabilities are also classified as either quantifiable or non-quantifiable.

7.4 Fair value determination

How we measure fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Plant and equipment is carried at fair value. In addition, the fair value of other assets and liabilities that are carried at amortised cost, also need to be determined for disclosure.

How we measure fair value of non-financial physical assets

The fair value measurement of non-financial physical assets takes into account the market participant's ability to use the asset in its highest and best use, or to sell it to another market participant that would use the same asset in its highest and best use.

In accordance with AASB 13 *Fair Value Measurement* paragraph 29, VCCC Alliance has assumed the current use of a non-financial physical asset is its highest and best use unless market or other factors suggest that a different use by market participants would maximise the value of the asset.

Furniture, fittings, plant and equipment (including computers and office equipment) are held at carrying amount (depreciated cost). Unless there is market evidence that current replacement costs are significantly different from the original acquisition cost, it is considered unlikely that depreciated replacement cost will be materially different from the existing carrying amount.

There were no changes in valuation techniques throughout the period to 30 June 2022.

\$390,000 - \$399,999	1	-
	3	3

8.3 Related Parties

VCCC Alliance is a joint venture managed by VCCC Ltd and governed by a board of directors appointed by each of the members of the joint venture. An independent Chairperson and Deputy Chairperson are appointed by the Victorian Department of Health.

The following entities are equal members of the joint venture at 30 June 2022:

Melbourne Health	The Royal Children's Hospital
Peter MacCallum Cancer Institute	St Vincent's Hospital (Melbourne) Ltd
The Royal Women's Hospital	Western Health
The University of Melbourne	Austin Health
The Walter and Eliza Hall Institute of Medical Research	Murdoch Children's Research Institute

These entities, as well as the personnel listed in note 8.2 and their close family members and personal business interests (controlled entities, joint ventures and entities they have significant influence over), are considered related parties of the joint venture.

Key management personnel

Key management personnel (KMP) are those people with the authority and responsibility for planning, directing and controlling the activities of VCCC Alliance.

The personnel listed in Note 8.2 are deemed to be KMPs.

The compensation detailed below excludes the salaries and benefits the Portfolio Minister receives. The Minister's remuneration and allowances is set by the *Parliamentary Salaries and Superannuation Act 1968* and is reported within the Department of Parliamentary Services' Financial Report.

2022 Annual Financial Report

Notes to the Financial Statements for the year ended 30 June 2022

	2022	2021
	\$	\$
Compensation - KMPs		
Short-term employee benefits	465,454	464,672
Post-employment benefits	30,982	28,988
Other long-term benefits	27,615	3,525
Totalⁱ	524,051	497,185

ⁱKMPs are also reported in Note 8.2 Responsible Persons.

Remuneration comprises employee benefits in all forms of consideration paid, payable or provided in exchange for services rendered, and is disclosed in the following categories:

Short-term employee benefits

Salaries and wages, annual leave or sick leave that are usually paid or payable on a regular basis, as well as non-monetary benefits such as allowances and free or subsidised goods or services.

Post-employment benefits

Pensions and other retirement benefits (such as superannuation guarantee contributions) paid or payable on a discrete basis when employment has ceased.

Other long-term benefits

Long service leave, other long-service benefit or deferred compensation.

Significant joint venture transactions

VCCC Alliance received member contributions of \$156,514 (\$154,201 in 2020/21) from each of the joint venture members.

Transactions with KMPs and other related parties

Related parties transact with VCCC Alliance in a manner consistent with other non-related parties. Procurement processes occur on terms and conditions consistent with VCCC Alliance's purchasing policy and procedure requirements.

Transactions between VCCC Alliance and member entities are detailed below. All dealings are in the normal course of business and are on normal commercial terms and conditions, except as noted.
