

GYNAECOLOGICAL CANCERS

Management, supportive care, and
survivorship issues for nurses

Friday 14 July 2023

9.00am–4.30pm

Woodward Conference Centre

10th floor, Melbourne Law (Building 106)

185 Pelham St, Carlton

A symposium to provide nurses with the latest knowledge and strategies to help care for individuals with gynaecological cancers, and their families.

Outcomes

To provide an overview of the different types of gynaecological cancers to enable best practice supportive care needs of individuals.

- To explore the role of nurses in the multidisciplinary team and the interdisciplinary approach to gynaecological cancer management.
- To address supportive care needs; physical, emotional, and psychosocial challenges, faced by individuals and families affected by gynaecological cancers.
- To discuss strategies for follow-up care, survivorship planning, and rehabilitation to facilitate the transition from active treatment to survivorship.
